MONEY, STOCKS AND GRAIN

New York Brokers Played for a Reaction in Shares and Got It.

At the Same Time It Took a Vast Amount of Short Sales to Bring It About-Indianapolis Cereals Active and Lower.

THE BOND MARKET.

Railway and Miscellaneous Issues Firm and Higher-Sales, \$1,216,000. At New York, yesterday, money on call

was easy at 3/05 per cent., the last loan being made at 3, closing offered at 3. Prime mercantile paper, 8@12 per cent. Sterling exchange was firm, with

actual business in bankers' bills at \$4.80@ 4.50% for sixty days, and \$4.88% @4.84% for demand. Silver certificates were neglected, and

closed at 714@724. Bar silver closed at 71: Mexican dollars at 59. At London bar silver closed at 33d.

The traders at the New York Stock Exchange played for a reaction yesterday on the theory that Wednesday's sharp rise would bring long stocks to market. They were assisted in their operations by the breaking out of fresh troubles in banking circles in Chicago, by the advance in the Bank of England rate of discount and the higher rates for sterling exchange in New York, and also by the unprecedented scarcity of currency, for which various premiums were paid. The large issue of clearing-house certificates was the cause of the decline. It was noticeable, however, that, despite the efforts of the bears, the market was comparatively free from excitement, and that the drop in prices was brought about at the expense of a material increase in the short interest. At the start some stocks scored a sharp advance. General Elestric and Chicago Gas moving up as much as 3 per cent. Subsequently the market yielded 1 to 6 % per cent., the latter in Chicago Gas, which fell off from 53 to 46%. General Electric declined 512, to 41; Sugar 418, to 6918; Burlington & Quincy 34, to 75; Rock Island, 84s, to 584s; Western Union 8, to 75, and the remainder of the list 1/2 to 21/2 per cent. Just previous to the close there was a rally of 1/2 to 2 per cent., and speculation left off steady at the recovery. Taken altogether the market received more effective support when raided than for many days past. Railway and miscellaneous bonds were firm and higher. The sales footed up \$1.-216,000 against, \$1,643,000 Wednesday. Wabash seconds rose 2, to 65, Illinois Central fours of 1951 fell 5, to 104. Chicago & Erie incomes brought 28 against 20, the last reported sale. Government bonds were firm and State bonds dull. Closing quotations

LOCAL GRAIN AND PRODUCE.

Great Room for Improvement in Trade, Prices Unsettled in Several Lines. The general tenor of the conversation of wholesale men is that there is large room for an improvement in trade. Not for many years have wholesale dry goods men and boot and shoe houses had as quiet a time. Grocers are having a fair trade, but not what they had looked for with the coming in of August. At the commission houses there is a good deal of activity, receipts of tomatoes and cantelopes being large, but both articles are rotting badly. A better quality of lemons is now coming onto the market. To see the large quantities of cabbages and potatoes on Commission row, one would think that lower prices would prevail, but they continue firm. Poultry and eggs are both

UNEXPECTED SQUEEZE

Those Looking for Better Prices in Wheat Were Disagreeably Surprised.

Nearly All of Wednesday's Gain Lost as a Result of the Silverman Failure in Chicago and Other Embarrassing Items.

TRADING AT CHICAGO.

Corn Went High., Pork Lost 25c a Barrel and Lard Gained .45c. CHICAGO, Aug. 3 .- A disagreeable setback was given the wheat market to-day. The first rebuti came from the suspension of Lazarus Silverman, a leading private banker. The effects of this blow were more than overcome, but in the last hour the market slumped again on ugly rumors about mercantile concerns, the failure to work round lots of cash wheat for shipment and the light export business reported from the seaboard. Corn was strengthened by discouraging crop news and provisions on good support. To-night, compared with last night, September wheat is off 1c, corn is 4 to 50 higher, oats are unchanged, lard is .45e higher and ribs .25e higher. Wheat started lower and weak, and during the first half hour sold off 140 from last night's close. Besides the Silverman failure, the decline was due to lower stocks in Wall street and to some disappointment in cables, which did not

advance as much as many thought they would in view of the sharp rally here yesterday. After the decline the market dragged along for a time, gradually recovering its tone but making no material advance. Toward noon Logan, Schwartz-Dupee and some other leading houses got a good string of buying orders, and as there was little wheat for sale the effort to fill them resulted in sharp competition. September selling up 14 c from the early decline. The crowd became nervously bullish, and when the leaders were observed to be buying vigorously every. body seemed to be seized with a desire to follow suit. It was a part of the gossip that Schwartz & Dupee's buying orders were largely from N. B. Ream. At this point uniavorable rumors began circulating and a fresh decline began. The market closed easy at about 40 from the

bottom figures of the day. Corn opened with 4c advance, and after selling up 40 more reacted 40 on the Silverman failure. The depression was of short duration, as the demand soon improved on increased buying orders coming in, and the price reacted 4 @ %c. declined %c, ruled steady, and the closing was 4 @ 120 from the top. The weak conditions cause alarm among shorts, and a good many came in on to-day's up turn. The situation in the interior is said to be really serious, reports being that the crop has been permanently injured by the severe drought. and every day increases the damage. Oats were a little higher early, but eased

off. Business was mostly local. The provision market was very quiet compared with its condition for three days past. The general impression is that the bulk of the stocks have worked into the hands of P. D. Armour & Co., and that is considered a guaranty of comparative steadiness. In the meantime lard was taken to the extent of 4,000 tierees for shipment abroad. Norton & Worthington were active buyers to-day, as they were yesterday, also, presumably covering short sales for customers. Lard was the most actively traded in of the specialties. Estimated receipts for to-morrow are:

Wheat, 160 cars: corn, 350 cars; oats, 200 cars; hogs, 15,000. Freights were slow, but offerings of boats not large. Rates to Buffalo were 140140 on wheat and lo on corn. The leading futures ranged as fol-

OUTPUT OF THE MILLS.

Minneapolis Millers Greatly Embarrassed in

Their Collections for Sales.

MINNEAPOLIS, Minn., Aug. 3.-The Northwestern Miller, in its weekly review, says: There was an increase in flour output last week of 6,000 barrels, yet the amount made was large. The total was 181,675 barrels, against 187,290 barrels the week before, 192,655 barrels for the corresponding time in 1892, and 174,400 barrels in 1891. A shortage of water power has begun to trouble the millers, and this alone is likely to prevent this week's output from showing an increase. One mill of 1,700 barrels capacity. which has been idle for ten months, owing to dull markets, was started Monday and promises to run steadily. There were seventeen mills running to-day, and, their power being ample, they would be making fully 30,000 barrels. The floor market, as a result of the heavy decline in wheat, is unsettled and weak. Millers hardly know where they are, so rapid have been the changes in the past week. Buyers seem to want flour, but at present prices, with the option of ordering out at pleasure. This millers are unwilling to do, and trades are often prevented on that account. Last week the sales of local millers nearly equaled the amount ground. Prices are 15@ 20e per barrel lower than they were a week ago. The sales on foreign account were largest during the past week, and bids were made on some big lots that could not be accepted, as the miller was not willing to sell so heavily for September and Octo-ber delivery. Millers are finding it necessary to exercise the greatest care in giving credits, and they are adopting the practice of selling mainly on sight draft, or else shipping to their own order. The direct export shipments by the mills last week were 78,300 barrels, against 58,845 barrels the preceding week.

Dry Goods.

NEW YORK, Aug. 3.-The better feeling recently noted in the dry-goods market continues, although there is as yet little change from the general duliness of demand. Nor is it likely that anything of moment will be done or decided in-til Congress has indicated the drift of legislation. It has been possible to do some business with exporters of heavy cottons, and the maunfacturing trade has called with some unsteadiness for goods ordered.

Editor Fortune (Colored) and Editor Murrell (White) on the Verge of Fighting a Duel.

NEWARK, N. J., Aug. 3 .- T. Thomas Fortune, editor of the Colored Age, and Col. William Murrell, editor of the New Jersey Trumpet, may fight a duel because of the board-walk war at Asbury Park. The Colonel came to this city Tuesday from Asbury Park, to publish his paper, and be had a great deal to say about editor Fortune. The latter had commented rather severely in the last edition of the Age on the fact that Murrell had supported founder Bradley in his attitude toward the colored people. Colonel Murrell told a friend that he had written a stinging reply to Mr. Fortune's remarks, and then read the article to bim. Mr. Fortune heard of this, and the Colonel's verbal comment on his editorial was quickly replied to.
"He sent word," said Colonel Murrell, "that if I published the editorial he would

challenge me to a duei. Well, I'll give him the chance. I fought a duel in New Orleans while I was a member of the Louisiana Legislature from 1871 to 1880, and I fight in the good old Southern style-shotgun and pienty of buckshot. I want to choose the weapons, and we'll hire a flatboat and go out into the river and fight." The Colonel sava that he will await in his office the visit of editor Fortune's second.

An Aid to Sweeping. Philadelphia Ledger.

For sweeping a room neatly there is nothing like newspaper aid. Take a page of newspaper or other paper at a time, wet in hot water and squeeze it until it ceases to drip. Tear into pieces the size of one's hand and cast them all over the carpet. Then sweep, and most of the dust in the room, if you use your broom judiciously, will be gathered into the papers. On matting use larger pieces of paper, pushing them about ahead of the broom, to take up fluff, if any, before beginning the regular sweeping. After a velvet or other heavy pile carpet is thoroughly swept, a sponging with ammonia and water will preserve its bright-ness wonderfully. About once a month, after sweeping, take a pailful of warm water, adding thereto a tablespoonful of ammonia or turpentine. Two spoonfuls of the latter will be good, it being a preventive against moths. Go over the whole carpet with a large soft cloth or sponge wrung so as not to drip. Doubtless you will be surprised at the rapid discoloration of the water. It the carpet be large and much soiled or dusty the water should 2.25@2.75 | be changed once or twice.

THE

INDIANAPOLIS JOURNAL

DAILY.

SUNDAY

AND

WEEKLY

The Journal's price for daily is only 15 cents a week, and it has a very wide circulation, reaching a large number of people hitherto unable to afford the luxury of a first-class daily paper. Reports from agents and subscribers indicate a continued increase, and that what used to be regarded as a luxury has become a necessity. The new readers not only remain, but they are constantly increasing.

It is the purpose of the Journal to make itself even more indispensable to its patrons, new and old, and to still further widen its field. To this end it will not only endeavor to maintain the characteristics which have established its reputation as by far the best newspaper in Indiana, but will add such new features and improvements from time to time as are in accord with journalistic progress and that may tend to the advantage of its readers. It will, for example, give increased attention to State and local interests. What Indianians want is a paper in which Indiana affairs are given especial prominence and importance. This want the Journal has always supplied as no other paper published outside or inside the State is able to do; but the rapidly developing industries and business and social enterprises of the community call for additional consideration and space, With this in view its corps of correspondents has been increased until it has a representative in nearly every town in the State Special traveling correspondents will visit the news centers of the State at trequent intervals, thus insuring the "write up" of every important event or matter of general interest.

Being published in the geographical center of Indiana the Journal is afforded unusual facilities for securing news promptly, and, what is of greater consequence, is able to reach its subscribers without delay. The running of moraing trains from Indianapolis is very favorable to the early distribution of papers sent by mail or express, and in most towns within a radius of a hundred miles Journals are delivered as early as in the city where they are printed. In the more remote counties there is but little loss of time in trans-

The Journal is the paper for Indianians and particularly for Indiana Republicans. The change of administration involves the settlement of political problems likely to be of the most direct personal concern to every farmer and business man in the State. All such matters will be set forth in detail, the Journal's Washington correspondent being instructed to give especial attention to everything having a possible bearing on Indiana interests. But though the Journal is Republican in politics it is non-partisan in the publication of news. Its constantendeavor is to secure facts unbiased by prejudice and to make its columns trustworthy records of each day's happenings. A large editorial force supplements the work of the press associations and the correspondents, and turnishes careful supervision for each department.

The Sunday Journal has a well-established literary character, superior to that of any Western paper. It is not defaced by "plate matter" nor fille! with a heterogeneous mass of syndicate literature, but its contributions and m scellany are chosen with a view to their special fitness and adapt ibility to the tastes of the readers. The reading matter in any given number of the Su 1day Journal is equal in quantity and is not inferior in quality to that found in the leading magazines. As an educational adjunct and a source of entertainment the Sunday Journal is indispensable in every well-regulated family.

The Weekly Journal, at \$1 per year, contains more reading matter than can be obtained for the money in any oth ? shape. It is carefully edited and offers the news of the week in condensed shape and a variety of miscellany, agricultural and household literature that render it one of the best investments that any family can make. Try it and see. It has a large circulation in this and other States and agents find it an easy matter to secure large lists of subscribers. Special inducements offered to agents.
